

Attachment 3

Final Report on Project Implementation

I. Information on the project

1. Name and surname of project manager:
2. Project ID:
3. Project title:
4. Project start date:
5. Project end date:

II. Scientific report

Brief descriptions of the obtained results, key achievements of the project, and practical application of the collected results.

Maximum 2 pages in total (Times New Roman, at least 11 pt, spacing at least 1,15)

III. Project products and results

List all products related to the project (the products declared in the application form are mandatory).

1. Grant application submitted to external research funding institutions

Granting institution	Date of submission	Application number
Project title		

2. Scientific articles published in the discipline of chemical sciences

All articles prepared based on the results obtained in the project should be listed according to the template:

Journal name	article status (submitted/accepted/published) if published, please add at least DOI number	IF/MEiN points
Authors and article title		

--

3. Oral presentation at international conference(s)

Conference name	Conference date	Conference place
Authors and presentation title		

4. Short-term scientific missions

Institution	Start date	End date
Short description		
<i>(scientific profile of the hosting institution, scientific supervisor, completed activities)</i>		

5. Other products and results, especially those declared in the application form.

For example, conference poster presentation, establishing an international/interdisciplinary cooperation, enhancement of the level of research competences of researchers, etc.

IV. Financial report – completed tasks and cost incurred

1. Schedule of research tasks

Task No.	Title	Brief description of the work	Start and end dates	Costs
1				
2				

2. Planned and incurred costs

Cost category	1 st year		2 nd year		Total costs (PLN)	
	planned	actual	planned	actual	planned	actual
Materials and services <i>including laboratory and computer equipment, laboratory materials,</i>						

<i>reagents, services, costs of external measurements and repairs, other</i>						
Conference costs <i>including travel expenses for consultations and short scientific visits</i>						
Office supplies <i>max. 5% of total costs</i>						
Total costs (PLN)						

List of the changes in planned costs accepted by the YL coordinator:

- 1.
